WORK EXPERIENCE

iOS developer
TTK Digital   Feb. 2022 – now

Have taken a huge part in three different projects, including a smart intercom app, telecom personal account app, and small enterprise project for company workers, implemented different features, including player for browsing courtyard camera observation on user account app and fixed a lot of performance issues, that have had a great impact on core business metrics, for example, increased users retention by 40%

iOS developer trainee
Microd   MIRCOD   Dec. 2021 – Feb. 2022

Did an internship.
Stack used: MVP, Snapkit, Alamofire, YandexMapKit

Featured projects

- **Letai 2.0** - App for service, tariffs and balance management for Tattelecom company clients
- **Stack** - UIKit, RxCocoa, RxSwift, MVVM, Moya, WidgetKit

- **My House** - App created for smart intercom system, which allows users to answer intercom calls using smartphone, also provided with courtyard camera observation
- **Stack** - UIKit, AVKit, LinPhone, CallKit, PushKit
